

SECHELLES - SEYCHELLES EU COMMUNITY CONSTITUTIONS

-1-

The First draft, in depth thought given towards a Constitutions for a European wide body – organization was 1980 in Vienna, France, Italy, Germany and Switzerland using the continental government requirement for the use of such constitutions and their organization. Some of the work had involved important lawyers.

Given events which took place in Vienna beside a great deal of personal document got lost, the papers relating to this process also got lost.

-2-

The Second most applicable and working Constitution for our in Britain, taking into consideration the information and knowledge of work done in France, Germany, Italy, Switzerland, Belgium, Austria – the aspiration for an eventual umbrella organization to cover our Europe wide Community activities was done in Hounslow, Middlesex by then Mr Phillippe Boule in Exile 1985/86 and Mr Mitchel J Edmond with important contribution from the British Irish Communities, LVSU Ethnic Minority Department and their legal Department, British Refugee Council, Refugee Forum, Wandsworth Forum, Hounslow Voluntary Action – in consultation with our Executive rather Steering Executive committee – Management.

We are very certain some of the former Executive committee members must have a copy, beside the British Officials. The Registrar of Charity must also have a copy.

Our own copy was taken to Angers – Loire in 1990 left in the care of Societe Saint Vincent de Paul in that old suitcase of Lord Beloff sister Mrs Epstine and we have never been able to recover them in spite very many correspondence.

-3 -

Having firmly decided our Community was going to have an EU wide presence between 1992-1995, then most of the former leading exile, refugees had returned home – to Seychelles. Mr Mitchel J Edmond undertook important research involving some of Britain leading bodies in these field, the European enlargement was in process, taking into consideration the future dimension of EU. Form Ashford -Kent and Folkestone, Dover a great deal of work and effort have been put into putting together a constitution which would work and be accepted by our communities. Most important the national governments and EU Institutions, the National Voluntary agencies. Lawyers had been consulted.

Among other issues this – the very nature of putting a Constitution for our Sechelles – Seychelles EU Community led to Police and politicians heavy handedness. The view was that we ought not to have an EU wide operating organization. We would be trouble. Along with all the documents which were ransacked and stolen from that “Emperor 1 bed mobile

home/office” at Caple le Fern, Caple Court Country Club – the owners Courage Breweries. Our Constitutions draft and many other papers were stolen and destroyed. The European Union appropriate Office, the UNHCR, the EU court and the International Court of Justice were informed accordingly.

Because of the uniqueness of the instrument in relation to our Seychelles EU Community functioning. Given that we have been very terribly punished times and times again by a vast array of parties in Britain – in spite of important discussion with then Layer Jacque Hodoul in 2000 and 2004 on some of the issues. Our community do not possess a proper Constitution. Those in Britain determined that we ought not to have the necessary instrument and mechanism to make our EU community work.

We want to take this opportunity to address and again inform the various EU agencies , the relevant department, the European Parliament, the European Court, that millions of Euro is spent and tons of paper work by agencies who 's existence are there to monitor, support and help such minorities like the Sechelles – Seychelles EU Community in EU overcome such a case and terrible state of affair and the fact that they have done nothing or very little about this.
